2

3

China's Bus Export

And, 70,000 units of buses were exported, with an export value of 4.4 billion US dollars; Among them, 9,700 units of EV buses were exported, with an export value of 1.68 billion US dollars.

China's EV bus industry sees a strengthening of its competitiveness.

Reasons for the enhancement of the competitive power.

Complete industrial chain

(1)The key components can be completely localized (for example, CATL battery, Golden Dragon motor, Songz air-con, Jiulong seat, Magnetic North electronics,Dong Feng axle,Donggang lamp)

All kinds of products

(2)Chinese manufacturers can provide all kinds of products and provide more efficient solutions for the market.

The EV market in China has been scaled up

(3)The EV market in China has been scaled up, and the quality has been continuously improved.

The Efforts and Achievements of China's Bus industry

1 Technological innovation

China bus manufacturing enterprises to continuously pursue technological innovation and improve product quality.

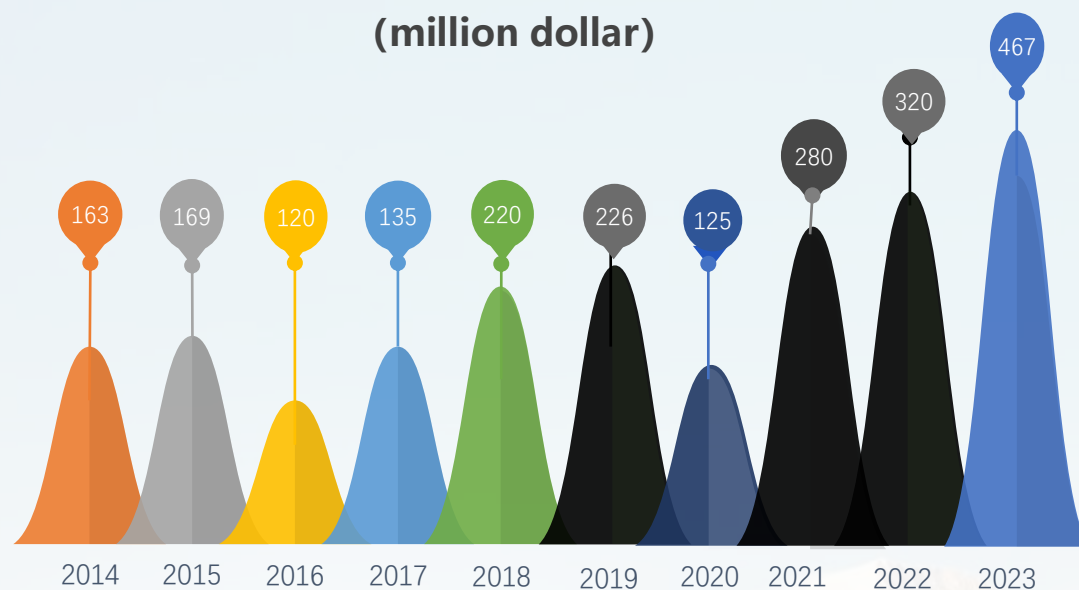

2 The recognition and competitiveness of China manufacturing

The sustained growth of Chinese bus exports reflects the recognition and competitiveness of China manufacturing in the global market

2023 Golden Dragon export sales **6926** buses

Overseas Sales Volume in Recent Years
(million dollar)

In 2023, Golden Dragon overseas sales volume reached 467 million USD.

China's bus industry's second largest export volume

In 2023, Golden Dragon Bus exported 6,926 units of vehicles, with an export value of about 465 million US dollars. In the past five years, the compound growth rate of sales reached 28%

The overseas market development

1 The sales volume of EV market has made great growth

At present, the total sales volume of EV products is close to 42% of the total export volume. Golden Dragon EV products have been exported to Europe, Southeast Asia, Central Asia, Middle East, South America and Africa.

2 Localized KD assembly cooperation projects

On the other hand, we follow with "One Belt, One Road" strategy, gradually changed from "going out" to "going in", and promoted a number of localized KD assembly cooperation projects, including in Thailand, Kazakhstan, Egypt, Ethiopia and other countries.

Golden Dragon Bus in the Indonesian market

The number of buses occupies the primary position among China brands.

20 years of cooperative history
