1. VDL Pinnacle Engineering India is a joint venture between VDL Groep of Netherlands and Pinnacle Industries Limited.
1. VDL Groep is Europe's leading electric bus, truck, and coach manufacturer and a global conglomerate with 105 companies, spread over 20 countries with more than 15,000

INTRODUCTION

- Establishment Year- 1996
- Design and develop top-of-the-line seating and interior products for commercial vehicles.
- With a sizeable engineering and development team, we have emerged as India's largest integrated commercial vehicle seating and interiors company; offering end-to-end solutions for Indian and international commercial vehicle OEMs across ICE and EV spaces.
- We are equipped with the latest technology, robotics automation, creative tools and robust processes to deliver the best solutions in record time.
- Pinnacle Industries also designs, manufactures, and supplies customised vans for personal, business, and special-purpose applications.

MISSION

Our mission is to be a technology and innovation-driven company with advanced research and engineering capabilities, including capabilities in developing systems and processes that increase productivity, cost-effectiveness, and enhance performance.

VALUES

At Pinnacle Industries, we live by our values. You can see it in the actions we take and the decisions we make. It's our driving force, our compass, and our strength.

Process - *Intelligent systems*

Precision - *Flawless execution*

Performance - *Superior results*

Our Portfolio

Seating Systems

1. Coach Seats

We specialize in crafting coach seats tailored for diverse applications, ensuring optimal comfort and safety. With upholstery options in full-fabric, rexine, or a blend of both, along with thoughtful details like a magazine pouch, bottle holder, and adjustable footrest, our seats are designed for excellence.

2. School Bus Seats

As the premier manufacturer of top-notch school bus seats, we prioritize quality and customization. Our seats feature a comfortable torso angle, grab handles, and upholstery options in fabric, rexine, or a combination. Ensuring child safety, we incorporate tooth guards, 2-point safety belts, and school-bag storage below seats.

3. Staff Bus Seats

Experience unparalleled comfort with our unique Bus Chairs designed to cater to commuter needs. Featuring injection-moulded plastic seat shells, a comfortable torso angle, and grab handles, our chairs are available in two designs with or without foam pads.

4. City Bus Seats

Experience unparalleled comfort with our unique Bus Chairs designed to cater to commuter needs. Featuring injection-moulded plastic seat shells, a comfortable torso angle, and grab handles, our chairs are available in two designs with or without foam pads.

5. Driver Seats

We are the leading supplier of high-quality bus driver seats. With a specific focus on comfort and ergonomics, our driver seats provide excellent support in all conditions with enhanced lower back and lumbar support.

6. Driver Seats- Passenger vehicle

We are the leading supplier of high-quality passenger vehicle driver seats. With a specific focus on comfort and ergonomics, our driver seats provide excellent support in all conditions with enhanced lower back and lumbar support.

Automotive Interiors

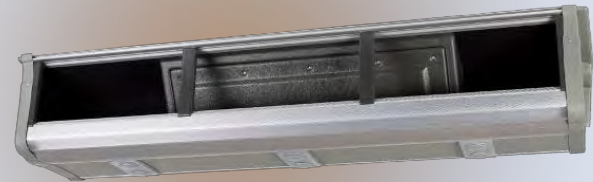

1. Automotive Windows

We manufacture windows for diverse commercial vehicle using a team of extensively qualified researchers and engineers. With the combination of our resources and knowledgeable professionals, we deliver customised products and solutions to our clients.

2. AC Duct and Hat Racks

As a trusted brand in the commercial automotive segment, we are a leading manufacturer who provide a variety of items that are made using high-quality materials and supplier of hat racks and AC ducts.

3. Interior and Components

We design and build one-of-a-kind interiors that redefine the travel experience. We believe in offering a complete experience, from hardboard door panels to vacuum-formed ABS door panels, each of our products has a distinct style, flawless performance, and luxurious convenience that appeals to clients across the world.

4. Interior Trims

We specialise in precision machining and custom manufacture of commercial vehicle parts, providing on-time delivery for clients. From interior panels and steering wheels to roof escape hatches, we offer them all.

5. Escape Hatch

We specialize in precision machining and custom manufacture of commercial vehicle parts, providing on-time delivery for clients. From interior panels and steering wheels to roof escape hatches, we offer them all.

6. Steering Wheels

We specialize in precision machining and custom manufacture of commercial vehicle parts, providing on-time delivery for clients. From interior panels and steering wheels to roof escape hatches, we offer them all.

7. Vacuum Forming Parts

We specialize in precision machining and custom manufacture of commercial vehicle parts, providing on-time delivery for clients. From interior panels and steering wheels to roof escape hatches, we offer them all.

Railway Seating

1. Executive Seats:

At Pinnacle Industries, we're dedicated to redefining the rail journey. Our Executive Seats are designed to set a new standard of comfort and innovation for railway travellers. Driven by our core values of Process, Precision, and Performance, we're dedicated to delivering unrivalled quality and innovation, proudly embodying the essence of #MadeInIndia craftsmanship.

2. Economy Seats

Experience the future of comfortable travel with our Economy Seats. From cutting-edge fire-retardant technology to adaptable charging solutions and integrated drink holders, we're reshaping the way you journey.

3. Tip-up & Foldable Seats

Tip-up and Foldable railway seats are engineered to prioritize comfort and safety, featuring a spring-loaded mechanism for effortless use. Constructed for durability cushion and upholstery, ensuring comfort throughout the journey.
